

Robin Spinks – iOS Developer

Personal Details

Mobile: +44 77 10 52 00 48
eMail: robin@uglybluecat.com
Location: London E11, UK
Nationality: British (UK Citizen)
Date of Birth: 7th April 1969
Website: uglybluecat.com

Profile

A competent mid-level iOS developer, with some Android experience, having developed, debugged and skinned hotel guest services applications as part of an agile team, and written a dozen complete native iOS applications for self-training, including a tic-tac-toe game and a World of Warcraft game companion, written in Swift, with a PHP RESTful API. Proficient in detailed UI construction to exact design specifics, with re-usable code implementing popular design concepts such as model-view-controller.

Mobile Development Skills

Swift 3, Objective-C, Cocoa, Xcode, Jira, Git, Sourcetree, Android Studio, Java, JSON, XML, PHP, MySQL, XCTest, CocoaPods, CocoaLumberjack, Crashlytics, Alamofire, Magical Records

Commercial Mobile Applications

Okappy	UI additional feature development and debugging
iRiS New BrandApp	Development of UI to precise design requirements and a custom control.
iRiS Delegate	Conference delegate companion. Provides agenda, messaging and conference information.
iRiS F&B Classic	Tablet based menu application
iRiS F&B Connect	Tablet based menu application enabling at-table ordering
iRiS F&B Mobile	Phone based menu application enabling at-table ordering
iRiS Web Valet	Mobile wrapper for web version of Guest Valet, Mobile Valet or Lobby.
iRiS BrandApp	As Mobile Valet but covering a chain of hotels
iRiS Mobile Valet	As Guest Valet but available on users personal devices and includes ordering room service.
iRiS Lobby Valet	As Guest Valet but information only. Designed for lobby based kiosks
iRiS Guest Valet	Guest services; local & hotel information, order hotel services, book tables, messaging.
Merck Quiz	Full stack; iPad UI, Linux hosted PHP API with MySQL DB integration.
